LEATHER CHARACTERISTICS

Leather featuring a natural appearance and vegetable-inspired characteristics, with a refined hand feel and distinctive aging properties. Its specialized finishes enhance the leather's inherent grain characteristics, delivering rich color depth, good mechanical strength, durability, and performance properties tailored to specific end-use requirements. Available in two specialized developments: TEZCA, engineered for enhanced water resistance and waterproof performance, and TEYA, developed to preserve the leather's natural grain appearance, authentic texture, and inherent material character.
